

This object, as well as other objects which will become apparent from the discussion that follows, is achieved, according to the present invention, by providing at least one receptacle is provided, with at least one gas distribution device and at least one scent material receptor, and that at least one aperture (4) is provided for the testing scent material.

On page 4, change lines 16-18 to read as follows:
For a full understanding of the present invention, reference should now be made to the following detailed description of the preferred embodiments of the invention as illustrated in the accompanying drawings.

BRIEF DESCRIPTION OF THE DRAWINGS;

and change lines 19 and 20 to read as follows:

Figure 1 is a schematic view of a scenting device based on the invention.

On page 5, change lines 1-4 to read as follows:

Figure 2 is a side view of a receptacle of the scenting device.

Figure 3 is a schematic view of numerous scenting devices that form a testing device.

On page 5, after line 4, insert the following heading and paragraph:

DESCRIPTION OF THE PREFERRED EMBODIMENT

The preferred embodiments of the present invention will now be described with reference to Figs. 1-3 of the drawings. Identical elements in the various figures are designated with the same reference numerals.

On page 8, after the last line, insert the following paragraph:

There has thus been shown and described a novel scenting device which fulfills all the objects and advantages sought therefor. Many changes, modifications, variations and other uses and applications of the subject invention will, however, become apparent to those skilled in the art after considering this specification and the accompanying drawings which disclose the preferred embodiments thereof. All such changes, modifications,
